Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/27/05 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ron Coslick on 10/14/05.

The application has been amended as follows:

Claim 16, line 1, "15" has been changed to "14".

Claim 21, line 5, after the word "layer;", the phrase ---forming an insulating layer on a silicon wafer; forming another layer of silicon carbide over the insulating layer; placing the dielectric layer in contact with the another silicon carbide layer; applying heat to bond the dielectric layer to the another silicon carbide layer; --- has been inserted thereof.

Claim 27, line 5, after the word "layer;", the phrase ---forming an insulating layer on a silicon wafer; forming another layer of silicon carbide over the insulating layer; placing the

dielectric layer in contact with the another silicon carbide layer; applying heat to bond the dielectric layer to the another silicon carbide layer; --- has been inserted thereof.

Claims 25 and 31 have been canceled.

Allowable Subject Matter

3. Claims 14, 16-19, 21-24, 26-30, 32 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or fairly suggest either in singly or in combination a method of forming a silicon on insulator device substrate having the steps of applying heat to bond a second dielectric layer to a silicon carbide layer to form a SOI device, wherein the silicon carbide provides thermal dissipation for heat generated by a second semiconductor layer, or a FinFET body, or a MOSFET, and other steps in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
